Seat Blue Marble, Top Sand, Bluestone frame

SPECIFICATIONS

Columbia's most popular chair/desk combination offers a full length brace joining the right front leg, lower part of the desk frame and back support tube, provide unequaled strength and durability without restricting arm movement and access to book basket from both sides.

Frame

- 1 1/4" diameter, 16 gauge steel tubing
- 1" diameter steel brace joins right front leg and lower part of desk frame and is attached to seat back frame
- 1" seat back tube parallel welded to the rear leg tube for added strength

Seat and Back

- 5/8" hard melamine resin attached directly to frame
- Solid plastic - ground hardwood flour, color pigment and melamine plastic resins, blended and compressed under heat and pressure (1900 psi)

Top

- 5/8" thick, available in Hard Plastic
- Molded in pencil groove
- Flat top mechanically secured to the frame in 12 places
- 18" x 24"
- Solid plastic - ground hardwood flour, color pigment and melamine plastic resins, blended and compressed under heat and pressure (1900 psi)

Seat Height

15 1/2" - 18"
16 1/2" - Belly Room

Tubing

- 1008 - 1010 CRS Platable steel
- Tubing - between 14 and 18 gauge
